## **Omega Shared** Susi Hawke

Omega Shared is the story of two wolf men named Owen and Zane...and a bear named Karl. This unlikely threesome are fated mates, who need to figure out a way to be together that will work for all three of them.

Karl is an alpha bear without a family of his own, since bears are solitary creatures who only form attachments to their mates. Lonely, Karl longs for family, and the comfort of having a support network, like his friends in the wolf pack enjoy. Little does he know it, but he will soon be raising his brother's cub. It would be a good idea if he had mates to help him when the adorable three-year-old girl appears in his life.

Owen is a wolf that doesn't make attachments. In his life, people leave. Never having had a family, he's pretty sure that he's not cut out for one anyway. Instead, he will just enjoy his secret affair with Karl. Who cares if they're both alphas? It's not like Owen's looking to mate and have pups of his own anyway. No, he's better off just fooling around with the alpha bear, than to risk his heart with an omega. Even one as tempting as Zane.

Zane lost his entire family on the day of his high school graduation. It's been three years now, and Zane is finally starting to heal and come into his own as an omega. When he sees an alpha from his pack kissing a bear shifter, Zane is intrigued. He'd never realized that alphas could be together romantically. Now, he can't get the memory of the two strong men kissing each other out of his mind. He feels a pull to them both, but he can't tell which one is his fated mate. They both smell so good to him! But, he couldn't possibly be a match to Karl, could he? Can wolves and bears mix? Is it even allowed? Zane has a lot to figure out if he is going to get what really wants from the two alphas: a family of his own.

This is the fourth book of the Northern Lodge Pack series. Every book is over 30k and guaranteed to have an HEA, but it's advised to read them in order for maximum appreciation. 18+ readers only please! And yes, this book contains M/PREG, knotting, adults doing lots of sexy naughty things to each other, and the occasional use of potty mouth language!

### **Monica says**

#### **Love it**

Loved this One! Loved em all really. This trio is loving and Hilarious! Really good story, even with some tears...can't wait for more!

---

### **Mimi says**

Review to come.

---

### **Angela Lover of all Books No Matter How Horrid They Are ♥\*? says**

This book was a bit too much for me. One of the mates was just so vulgar in his speak to the point where I just wanted to skip his point of view. I understand mates are supposed to balance one another and all three of them do balance one another. This was just okay.

---

### **Dominique Bast says**

#### **Sweetest**

Love the three together . I recommend that you should take the time to read and enjoy the stories written by susi hawke. Trixies so cute and smart a walking 30th something in a kids body

---

### **Rene Sanchez says**

I think this has been my favorite book in the series so far! I mean, two hot Alpha's mating a scrawny little gingersnap? It was perfect! and now having the pack intermingle with bears? I'm literally all fuzzy and warm! Kudos to Zane for being all kinky and not settling for the norm!

---

### **Quen Barlow says**

#### **Fantastic story**

This book was sweet and hot. Owen Zane Karl have a beautiful story that's well written and definitely worth reading. You will laugh and cry. Zane may be a omega but he doesn't take crap from anyone. Karl is the

sweetest alpha I love the way he talks he is the calmest of the three. Owen comes across as a jurk at first but he is a big teddy bear.

---

### **Shanna says**

I was quite disappointed in this book. I enjoyed the previous books in the series and I expected more of the same in this book. Unfortunately, it fell short on all counts. The relationship felt rushed and underdeveloped. The sex was awkward and poorly written, full of creamy essences and man-meat. It seems to me that this book was written in a hurry and it showed.

---

### **David Durkit says**

#### **Wonderful**

Book four in this series is like the other ones. The characters are well developed and the story flows nicely. I was hoping Aunt Cat would've made an appearance.

---

### **SoCalBookReviews says**

I really enjoyed everything about this book. From the writing, to the storyline, to the narration. Everything was pretty perfectly done and incorporated together. I really liked seeing how the two Alphas Owen & Karl, and their Omega Zane interacted with each other having such different personalities and upbringings. I think it was a smart move for this book and it was really interesting to see them all thrown together, especially when Cubs got added to their mix. Super cute how Owen did a total 180 on not wanting a Mate (or two) or even Cubs; to totally being wrapped around their fingers, there were a few times I totally laughed out loud during this book. And the narrator John made listening to this story even more enjoyable than just reading the book, he really brought a lot more feeling to this story. His voices for all three Men/Wolfs/Bears was great! This book was all around fun, funny, hot and steamy and had just about everything you want in a Alpha/Omega Shifter book. This one is for sure my favorite in this series out of the first 4 books, and I can see myself listening to this one several times.

---

### **Diane Dannenfeldt says**

I was really disappointed that we only saw one mating on page. It was eluded that Zane and Carl mated but we never saw it. We never saw Carl really getting it on with either of them. Right after Zane's and Owens first mating we should have seen Zane and Carl. Plus I believe that we only see Owen doing the biting on both. I really needed that connection.

---

### **Lynze MF says**

I liked this book it was ok

This has nothing to do with my rating but I realized that Aunt Cat wasn't even in this book like she was mentioned and a few stories were told about her but she wasn't actually in it that's kinda sad

---

### **Natasha Lynn Harris says**

#### **3's Company**

What do you get when you put an Alpha Bear, Alpha Wolf, and an Omega Wolf in room together?..... One hot menage. Zane, Owen, and Karl all suffered a loss of family in the past, but now these True Mates are building their own.

---

### **caroline wilson says**

#### **Another sweet read**

Another good addition to the series. This is the tale of Karl, Own and Zane. Karl and Owen have been in a secret relationship due to them being both alphas until there caught in an embrace in the woods by Zane. At first owens angry and believes Zanes going to tell on them until Karl ever the sensible bear points out that Zanes there omega. This was about there romance and getting over there own problems to happy ever after. I liked that each character was different, Owen is funny, Karl romantic and calm and Zane being shy and introverted. Really enjoyed.

---

### **Debra Lamey says**

#### **The more the merrier.**

This story was just so funny. I would have liked to read more about these three fated mates. The romance was sweet and the way their emotions played out was perfect. I would recommend this book to anyone.

---

### **Sierra says**

Rating 2.5 One thing that is driving me crazy about this series is how every single person comes from a screwed up, heartrending family situation. You can have an okay family but still have problems as an adult or with relationships. It's just getting old. I also have to say that, while I really liked the big softie Karl, Owen was just a complete @ss! Poor Zane is all bashful and virginal, but Owen is insensitive and picks fights with both Karl and Zane. Karl keeps having to translate and run interference for him. I don't see this being the best triad going forward. One thing I really regretted was the timing of Zane's heat, it obscured a very important milestone for him. I have to admit that I am not one for menage books but am more accepting of it in the fated mates universe. As usual the editing is abysmal--not as bad as in the first few books but really crying out for a proofreader. Somehow, even with all these faults, I still didn't think the story was bad,

just not as enjoyable as the others. I have KU and will be reading on. This series is somehow an odd guilty pleasure for me, quick, with some humor and (mostly) likeable characters.
