A DARK POWER RISES

“Even as I whisper to you, Father, even as my breath touches your ear, the final battle has begun. The sun is setting on the frail world you have known. It is passing, and with its passing, the greater kingdom shall come.”

The death of the Saudi King has removed the final barrier between peace and chaos. Prince Abdullah al-Raman, a pawn of Lucifer and the Forces of Darkness has taken over the throne and is now in a position to draw Israel and the United States into an unprecedented war.

Meanwhile, Azadeh, a young girl who may hold the key to preventing the impending destruction, has recently witnessed her father’s brutal murder at the hands of terrorists. She has set out on her own in a desperate attempt to survive, but Lucifer and his minions are well aware of her power and will stop at nothing to ensure she fails.

Against the backdrop of torn-from-the-headlines Middle Eastern drama, the Wrath & Righteousness series is a fast-paced thriller that explores man’s role in the eternal battle between good and evil.

Chris Stewart is the New York Times bestselling author of several books, including *The Miracle of Freedom*. He is a world-record-setting Air Force pilot (fastest nonstop flight around the world) and president and CEO of The Shipley Group, a nationally recognized consulting and training company.

Susan says

The next piece of the story. (The remaining) characters are becoming more developed, the evil plan is becoming clear. The struggle between evil and good in each individual and in the world overall. Great reading! Can't wait for the next episode...

Tim Smith says

I have to agree with a lot of comments people had with this episode of the book that it was much slower than the last. Hopefully part four will pick up the pace where part two left off.

Jeremy Anderson says

This series keeps getting better with each book! So suspenseful that it's hard to put down. Can't wait for the next book, next month!

Eric says

I found this one a bit slower than book 2 as it had a lot more character development in it like book 1 did. You can definitely tell things are ramping up to a point, but this one felt like it slowed down a bit too much. Not saying that the book is bad, but just a slower read compared to the others. Looking forward to the next one, but really wish they were a bit bigger with the length of time given between each new installment.

Shenna says

I wish we could give half stars...this would be 3.5 for me. Enjoying the series so far!

Diane Westin says

This is the third book in the series and it is getting more suspenseful with each book. In this book Sam gets chosen for the elite combat group but first he must find and save Azadeh before the enemies find her and kill her.

Karen Blaylock says

This series keeps getting better.

Pat says

It will be fun to read the rest of the series.

Shannon says

Loving this series. Can't wait to start the next episode!

Mary says

I loved all the series. They were short & easy to read. Very honest & up to date up the time. Recommended by Glenn Beck another favorite author who recommended these books which I would have never found without his recommendation.
