A nice story but just so lacking in passion. Has a nice plot; a possessive sexy Alpha male; a naive amnesiac wife; jealous sister-in-law with a 'I want your man' attitude; a hired other man; and a beautiful ranch setting makes for nice read.

Found this dragging along then fast moving at the end

meh.....Things just weren't quite right.

Though I wouldn't categorize the heroine as TSTL, she certainly didn't have much of a backbone or common sense.

She jumps into bed with a man she just meets. Marries him for lust rather than love (her own words). Believes him capable of harboring a mistress and child simply because he felt the woman was socially beneath him. Yet refuses to leave him because she will miss out on the sex.

The hero on the other hand, listens to his vicious sister in-law about his wife's infidelity without any evidence other than the man happens to be on the same flight as her.

These two weren't really worth the investment of my time.

Karen and Luiz Andrade are married for a few months after a whirlwind courtship – literally one week knowing each other. She ran off one day after getting some devastating news and he believes she left w/ OM. Of course she then gets into an accident and is injured w/ partial amnesia, and the OM is nowhere to be found. But Luiz will take his estranged wife back home and try to make a go at it because marriage is forever . . . doncha know?!

Luiz wasn't a bad guy, but he did believe other people rather than looking for some solid evidence. Luiz also liked to keep things from his wife and by keeping his secrets he opened them up to hurt and manipulations by outside parties who only had their own best interests at heart. Karen believed at times that she may have cheated on her handsome hubby, but somehow she knew that didn't sound like her either. So she has to regain her memory and get to the bottom of this mystery.

Karen believed other people as well rather than speaking to her husband, but seriously he should have told her. I suppose it looked bad that she was meeting w/ OM, but after he accuses her she does explain that . . . okay after she accuse him about OW he explains as well. I WANTED to see SIL get hers though. Didn't want to read that he took care of her I wanted to see her try to wiggle out of it or at least admit to her part in the whole thing.

Karen ran off because she believed that Luiz had a child w/ OW and that he was frequently seeing them when he was out that way. In Karen's defense she was still suffering the loss of her child w/ Luiz and she didn't think things through nor confront him. It was easier to be manipulated and believe the worst of Luiz. And it was nice that Luiz never really forgave his mother too for her part in the problems in his marriage.
