I really liked the first book in this series but for some reason i kept putting off reading Twice The Touch but after seeing another book for Nicholas and Kayla on Amazon i decided to catch up.I have no idea why i didn't read this sooner these three were seriously hot together i'm now going straight onto book 3.Look But Don't Touch is still my favourite so far in the series though i loved the daddy kink in that one.

Mark Cooper is divorced and a bartender at Switch. He grew up with parents in an alternative lifestyle and he has chosen to follow his own path, unlike his 3 brothers who live on the straight and narrow. He is asked one night by Nicholas to assist two beginners with their scene.

Brayden Zeagler and Evangeline Lacroix are new to the BDSM lifestyle. Brayden grew up thinking that a heterosexual vanilla relationship is the only way to be normal and he fights through other feelings that he has. Will Mark be able to break down Brayden's walls so the three can develop something more?

I enjoyed this book and getting to know Mark, Brayden and Evangeline. It was also interesting getting a quick glimpse of Mark's brother, Greg who seems like a total ass.

I liked that Brayden and Evangeline knew they needed some help and appreciated Mark but it's totally unclear about how far Brayden will go due to his insecurities and brain washing from his dad. You can tell that Evangeline is a great person and so dedicated to Brayden but is very attracted to Mark as well and wants a little more.

I'm definitely curious to see what's next for these three!!

Well, well, well Master Cooper...

This was quite the hot, little novella featuring a delicious Dom and two endearing subs. For under 100 pages, Cara Dee managed to nicely draw me into this D/s relationship and the potential that's there. I'm intrigued about where this may go...what kind of a future is possible for these three? Especially with Brayden...he grabbed a little piece of my heart in this book and I'm so glad the next installment is entirely in his POV! I

really want to see him finally let go and take what he wants.

However, one issue that I have that kept me from rating this higher is the author veered into reference manual mode at times. There were too many instances while writing a scene where it turned into a BDSM fact sheet and manual.

Mrs. Reader says

I liked this second installment just as well as the first. I wanted to know a little more about Mark the bartender given that you only got to see flashes of him in the first book. Evangeline and Brayden are perfect subs for him. I was just getting a little annoyed by Brayden, I mean let it go man! Your father is not here.

Shielvin says

If you want to read this book, you need to prepare the 3rd installment because this book's like just the part 1. The story done after the acceptance of their arrangement for longterm 3some D/s.. the next part should be coming in the 3rd book, because obviously Brayden is still in denial..

I love the concept and the story, but its too short. Maybe because this is just the beginning. Let's go to the next book!

Fresh out of a miserable marriage Mark Cooper was happy with not having relationship commitment. As one of the Master at Switch he was content in enjoying his lifestyle. But an impromptu training session with a new clueless couple, started to stir something in him.

I doubt I'll ever call her a masochist, and that's a good thing seeing as I'm not a sadist, but yeah, I think she gets off on a fair amount of it. And Brayden...the jury's still out on that one.

Evangeline Lacroix and Brayden Zaegler has been in love for a few years but they yearned for something different when it came to their sex life. Meeting Mark brought them to a new euphoric height while he

attempted to push them out of their comfort zone.

Their pleasure belongs to me. And my mind wanders to Brayden's pleasure. Would he take it from me?

If I remember correctly, I've only read two other books about male sub. I was pleasantly surprised this book added to the tally.

Their submission is a gift, and I'll be damned if I'm going to fail them.

I like Mark's background story and how he handled his life both outside and in scene. The sex was hot but I was hoping for more of it. Still, I enjoyed this one overall.

Note: I love how he called Brayden pup/puppy. It's cute lol!

"You're going to make this hard for me, pup."

3.5 Stars!

Now this was more up my alley, as we get the promise of some MM and/or MMF action. Again, BDSM and the D/s isn't normally my cup of tea but this one worked better for me.

What do you get when you mix a pair of submissives with a recently divorced Dom who has been holding back his true nature?

You get Twice the Touch by Cara Dee. Book two of the Touch series, and it was a perfect, quick bit of smut. These three have their story continued in the next book, which I can't wait to read.

Kiri Fiona says

And here's what started it all.

Cute couple decide to take a walk on the wild side, and go to a BDSM club to fool around. This is a dumb idea when you have no experience, and nobody to guide you. And also, neither of you are the dominating type. As luck would have it there's this crazy hot bartender slash big bad dom who can hook them up with some edumacation. Filthy shenanigans ensue.

I read this last Friday, and it's the first MMF book I've ever read. At first, I thought I was going to be uncomfortable about dude on dude side action (oh, don't you sit there judging me with your judgey eyes! I clearly prefer my smut of the daddy dom or bad boy biker variety.)

So imagine my surprise when I found myself cheering lewdly. Loudly. Cheering *loudly* is what I did.

Fucking splendid. "You're going to make this hard for me, pup."

Mark Cooper was hot, I liked the openness of the whole scene, and I actually learned quite a few things. Ms Dee would make an excellent sex ed teacher, *je suspect*. Incidentally, we had a crap sex ed teacher. Most of my classmates had been treated for an STD or been pregnant at least once by graduation. Shout out to Mr. Logan.

No, I really enjoyed all of it.

Except this one thing. I loved Look But Don't Touch. It's my jam. But I am getting more and more annoyed with Kayla's character as time goes on. She's kind of a douche.

Review is now longer than the book, so I'll try and scrimp on words here. I have a sneaking suspicion that MM might be my new thing - which is unfortunate, since I am missing the bits required to make man on man sex an option.

Alma (aka Mrs. Rhaw) says

Wow! Brava Ms Dee! Short story with a hidden cliffhanger!

:)

Liked it very much

Karen111 says

The sex scenes were hot, but outside of those it was pretty boring and cheesy. It followed the same format as book one: scene at the BDSM club, meeting the person randomly the next day, another scene at the club.

We meet the people from the last book and other people that I'm sure are going to feature in future books. But this is a novella, and so the focus should have been on the main characters. I don't care about the H's family.

Other annoyances:

*The H's parents knowing and enquiring about his sex life. No. In fact, almost every character was privy to the H and h's sexual choices.

*Kayla just gets more annoying the more I read about her.

*The H has money to burn yet chooses to spend his spare time doing bar-work.

I probably won't continue with this series. Could've been so good. Pity.
