A Proscriptive Relationship Jordan Lynde

Holly's new, young teacher has a dark past, and a dangerous future. She soon finds herself charmed by his ways, and gets thrown into the chaos. Who knew having an ex-gangster for a teacher could be so troublesome? As Holly and Mr. Heywood grow closer, more questions about his past come upon Holly, as does danger. What is Mr. Heywood keeping from Holly? And why is it so bad? But most importantly, if she falls for him, could their relationship survive? After all... it would be a proscriptive relationship.

I can tell you that i have read every single book xxskater2girl16xx had written on wattpad.

She is by far my favourite author there.

About this book, you wouldn't be surprised to know that i absolutely **ADORED** it.

This book has made me laugh, cry, squeal, fan-girl, blush, and made me crazy hyper.

Jordan Lynde has got a way with words. She has some serious potential and i really, really, *really* wish she would publish all her books in paperback.

I would really love to have all her books in my collection.

It would be worth every penny.

My rating? as high as it can get, 5 stars is not enough

One of the most remarkable stories I ever read. Only found on Wattpad.com.

BEST.

BOOK.

MUSTN'T.

CRY.

Alright- here are my thoughts. This is going to sound *REALLY* weird, but I LOVE student/teacher relationships, not that I'd ever want to experience one...ya know.

All the student/teacher books I've read either went too fast, were too sappy, were too cliché, or weren't realistic.

This book was just different. Every line and word was different. The whole plot was different. The action and violence made it even better, but I especially loved the moments when they joked with each other, and of course, the sweet and romantic moments. I cried, laughed, groaned, smiled, and screamed.

JUST READ THIS BOOK IS ALL I HAVE TO SAY.

IT'S DIFFERENT.

NOW I NEED TO REREAD THIS.

LOVED IT!

I loved everything about this book. I loved the characters and the plot with the little mystery and the writing style. It just took you places with ups and downs, seriousness and clumsiness. I can't believe how much that

book made me laugh given the situations that were happening.

Holly was the cutest thing ever with all her innocence and awkwardness. I think everyone will relate to her in one way or another, I certainly do. She's a typical eighteen year old girl with her doubts and fears but also her excitement for new things and wanting to just have fun. I also found her very brave (sometimes to the extent of stupidity) and she's the one person that certainly took blushing to a whole new level.

Mr Heywood was probably the person with the most character development. Even though he puts up a strong display, I liked when we got to see a little deeper inside. It was hilarious seeing him bossing Holly around and making her nervous all the time and messing with her head.(view spoiler) I have to say, though, that Jeremy was definitely the funniest person here. I just want to be his friend (well not really, given all that he does to them) and his relationship with Heywood makes me feel like he's practically Chris' family (their friendship, of course. He-he.)

I have to say that I don't know many student/teacher plots but that one was very interesting. There were a lot of elements that hinted at the characters' personality without mentioning them again (view spoiler). The story itself was action packed but also so funny my family complained sometimes. It was an awesome combination and the author definitely pulled it off.

2 stars

Did a fast read, I wanted to drop it at chapter 2 coz it ain't that unique but then I decided to just continue coz he's kind of an asshole and I like asshole characters! Lol

The story's okay, i'm not sure if i'm going to read stories from wattpad again, this is too light for me, I mean, even with the gang thing, it's just...i want heavy stories, i want hot scenes, and I didn't get any of that from this novel. I think teens would love this but not me...

I actually read this when it was on Wattpad, and I absolutely LOVED it!

FIRST IMPRESSION

This looks like it'll probably be quite an interesting book.
Teacher/student romance - it'll probably be quite an amusing story.

WRITING STYLE

Good. I've read some of XxSkater2GirlxX's books before so I am slightly familiar with her writing style. I don't think it was as good as some of her others, but hey ho, that's just me.

PLOT

I will say this, original. I haven't read any books quite like this.
It wasn't fast paced and although not too slow it is a long book....
I really didn't know what to expect in some chapters.

CHARACTERS

It is quite amusing how often Holly blushes/cries. Seriously comical.
As far as main characters, I suppose she is okay...
She is quite a clichéd character though, so yeah, a little more originality would be nice...

Chris can be amusing at times, but most of the time I was thinking 'dickhead'.
He is pretty unrealistic at times.
He was pretty fine apart from that... If I knew someone like him... Argh, they wouldn't be breathing right now....

I. Love. Jeremy. He is just an awesome character, ahh!
Okay, anyway back to being my critical self, I can't think of anything bad to say about him.
He wasn't perfect (perfect characters are unbelievable) but was really amusing to read.
Some of the stuff he said.... Funny :)
There was one bit that would have worked well but I think me and most other readers wanted to cry. Until I saw the author's note underneath it. Which was good.

Casey. Jeremy's perfect match. She is basically a female equivalent of him.
She is also very amusing to read and at the end surprisingly chill about everything.
Her and Jeremy teasing Holly and Chris is funny to say the least.

that I remembered to look up it's publishing status. I was extremely pleased to find out it had finally been published, after all this time! Plus the cover is gorgeous, I have to say. Congrats Jordan Lynde, I've known about your talent for quite awhile, now it's time for the rest of the world to experience it. I don't mean to be sappy, but you've inspired me in so many ways. I'm also a young author, and because of you I haven't undermined my own writing based on age.

Now for my extremely overdue review. I don't remember the plot all that much, I read the novel over a two years ago. All I remember is gangs, the addicting characters, and pure awesomeness. Holly is the epitome of a sweet, innocent school girl. Chris is mysterious...the type of mysterious that draws us to him. Inbetween the intense plot and witty humor (there's lots of it, and it's great), the characters grow. That's what I remember most, how *alive they are*. *Out of all the protagonists, I have to say I remember Jeremy's scenes the most. I loved him so much, and look, two years later I still haven't forgotten how hilarious his character was. This novel was deep, and the little twists and turns made it even better. Without the student teacher romance it in it wouldn't have been near as original. Lynde did a great job of making the plot unique. It was fresh and addicting.*

All in all, everytime someone mentions Wattpad I automatically recommend reading A Proscriptive relationship first. Anyone that listens to me becomes a huge fan, always. This novel and the one that follows occupies a huge part of my heart. It changed the kind of books I read for the better. I am no doubt going to buy my own copy...I will actually be able to hold a hard copy in my hands, I can't wait! Let's pray this get's attention, it surely deserves it. I hope the next two will be published, trilogies are more likely to take off. It doesn't matter though, I will always remember how much I love this story.

Melisa Regueira says

Mis respetos a la autora por atreverse a hacer pública su historia. Simplemente no me gustó.

El argumento daba tela para crear una muy buena historia, pero entre los sonrojos de Holly y las idioteces de Chris, la historia se fue cuesta abajo.

Muchas de las situaciones resultaron ser tontas e ilógicas. Adultos que se comportan como adolescentes y adolescentes que se comportan como niños. Absurdo.

Paige says

I first read this book on Wattpad, Its definitely my favorite book. I totally fell in love with Chris's character. I loved this book so much I actually made a trailer for it on YouTube. I would definitely recommend this book and the sequal 'A Superstitious Relationship' to anyone looking for a good love story

Emily says

Best book on Wattpad in my opinion! Jeremy is the funniest, most adorable, kinda third wheelish kind guy I've read so far. Chris had me melting inside and Holly had me hooked! They're a lot of main female characters that I find annoying, almost all of them, but never Holly. I can only dream of having

characterization and plot forming skills like her someday. And ohmigosh, the ending of this book was perfect! The whole thing was actually. Lynde really knows how to hook a reader and create a startling romance. Five stars all the way, I recommend it to anyone!

I have met the writer of this book in real life, and I know some things about this book that others don't. But I still love it immensely.
