## **From Reader Review Avengers Ft. Hulk & Nova #1 for online ebook**

### **Douglas Prince says**

As this is under a dozen pages of superhero goodness, I'm going to review the whole four-part series when I get to the end - read my review of 'Avengers Ft. Hulk & Nova #4' for the big scoop.

### **Vijay says**

#### **Avengers Ft. Hulk and Nova (2016) #1 (of 4)**

I chose this rating for the book because Brandon Montclare has wrote the book well and the illustrators have done good work with this book.

This book was very nice to read

### **Jonathan Proaño says**

#### **Wasn't bad**

Considering it is a free product, it is good to have a quick read. It is funny to see that much ads of WU.

---

### **Em says**

This was a fun read. The art was beautiful and clear, the writer did a good enough job with these characters, but overall it didn't feel like there was much context. It was like the story had no meaning to it, other than to advertise Western Union.

---

### **Leo McBride says**

#### **Ugh, lousy blatant advert**

An advert masquerading as a comic. The kind of thing that makes you hesitant about picking up freebies. Worse, it's a 4-part advert.

---

### **Doctor Doom says**

Too short, too much of a commercial for Western Union, too forced. The characters did not ring true to me and I have been reading Marvel stories since the 1960s. Even though it was free I feel cheated with the time it took to read these short stories. It will be forever deleted from my kindle.

**Nishad Bhide says**

**Go Avengers**

I am a fan of scavengers

I do not want to say anything more than this....

In fact I do not need to say anything at all.

The above statement says it all.
