**Katerina Kostaki says**

“Cosmic Light” is a spiritual book of poetry, written and published primarily in Greek language in Athens ~ Greece (October 2008). Its original title is “ Sympantiko Fos” . It’s a hymn to Unconditional Love and Compassion, a legend for Eros and Soulmates, a new perspective of our astral origin and evolutionary path to Light that underlines humans’ willing to reconnect with Cosmic Consciousness, a commitment with Destiny and Higher Good according to a Divine Plan. “Poetry is a vivid spiritual gate. However the magical sense that a reader derives from the poetic travelogue could be described but only an intellectual, Divine River of Dreams, Light and Unconditional Love”.
