Easton doesn't believe in love. He believes in Death. Darkness. Sin. As a reaper for Hell, it's all he's known for over four hundred years. When he gets slapped with the job of training the boss's daughter, an angel who knows nothing but joy, he knows he's in for a world of trouble.

Though he's made it clear he wants nothing to do with her outside of work, Gwen would do anything to get closer to the dark and wounded reaper—even taint her angelic image and join the ranks of her father's team of reapers. But in all her planning, she forgot to factor in one thing—how far the demons Easton doomed to hell would go to get revenge.

When the dangers of the Hell threaten Gwen, Easton will do whatever it takes to save her. But as the darkness closes in on them both, will he be able to save himself?

*“You believe everyone can be fixed. They can’t. Some are meant to be forever broken.”*

This was a YA story about a reaper who falls in love with an angel.

I don’t really remember Easton from the previous books, which is probably more to do with the fact that it’s about 2 years since I read them. Anyway, Easton came across as a bit of a damaged soul in this story. He worked as a reaper, but really he had a kind heart, and had to harden himself to deal with his everyday life.

*“I’d never understood the dead’s longing for what they once were. The flesh. The blood. The feeling of life rushing and burning through their veins. The numbness was something I was thankful for.”*

Gwen was an angel who felt too strongly about the humans she tried to help, to the point where she was prepared to do anything to save a soul wrongly taken to hell. She seemed to be able to see good in everyone, even when no-one else believed that there was any good to see.

*“As angels of joy, our soul purpose was to bless humans with happiness, to eliminate the dark and give birth to light. I’d done those things for Tyler for two years, and found it impossible to stop caring.”*

The storyline in this was about Gwen and Easton going down into hell to rescue the soul of a boy wrongly taken there. There was a bit of flirting and romance between Gwen and Easton, but the relationship seemed to move very quickly for me. I felt like they went from sort-of-friends to kissing the lips off one another in a matter of a few lines, and it was a bit surprising.

*“I wanted to kiss her.  
I’d never wanted to kiss anyone.”*

We did get some sweet and romantic scenes between the pair which were nice, but it did happen rather quickly.

*“Because I love you.”  
Easton paled and his hands dropped to his sides. He took a step back, and his throat worked as he swallowed. “Don’t say that.”*

The ending to this was happy, although it was maybe a little rosier than I expected.

### My Review!

I've been waiting for this book for TWO years, ever since I read *Blurred*. I couldn't wait to read Easton's story, a character I grew to love in the few scenes he was in during the first two books. And let me tell you, it was definitely worth the wait (even if it wasn't my favorite in the series).

It's a short book, and not much feels like it happens, but it's more character-driven than about the plot. It's more about two characters who grew up with different worldviews and who are the complete opposites. One who grew up sheltered from all the bad, a Heaven's angel who spreads joy to people who need it. And one who only knows Hell and death, pain and torture.

I loved Easton in the first two books, and that didn't change in this one. If anything, I fell even more in love with him, with his quiet shield, his soft heart, his caring nature. He likes to believe that he's just like any other Hell reaper, that he belongs there. But he's not. Even when he has to do his job, he does it differently. He *cares*. He's just... closed himself off, locked his heart away, because anything else would just cause him pain. He remembers everything about his past, and it haunts him. But Gwen shines, and her inner beauty and light brings joy into his life, his heart. He starts to hope, to believe, to *love* again. It was a beautiful journey to watch, seeing this tough-as-nails character take off his armor and find peace.

I also loved Gwen, the newest addition to this series. She was such a wonderful character, one who was inherently kind and sweet and joyful. Someone who loved making others happy, and who believed in humanity and the people in it. When she has to go into hell with Easton to save someone, she's forced to face ugly truths. That not everyone is good. That not everything is all sunshine and rainbows. But her views before weren't necessarily naive; she'd just never seen the dark side. Not like this. And you know? She still powered through it, with strength and determination and bravery. **But most of all, with hope.**

Their romance developed quickly, very quickly. And normally I don't like insta-lovey romances, but there are times, and there are books where it doesn't matter how long the two main characters have known each

other. What matters is that I *believe it*. And I did believe it with Gwen and Easton. They made each other's lives better, and they formed a lasting connection after all they go through in this book (which is a lot).

I would have loved more of the secondary characters, though! I was missing them, especially Cash (my love). ;) I wanted more of their interactions, especially with Easton and his fellow reaper friends, though we do see them all near the end. The plot was a little predictable, in that I knew it would end happily so nothing made me on-the-edge when it came to the characters' lives. But that's totally okay! I was just SO HAPPY with the story and with the ending. It was so much fun to read, and I'd really missed these characters, and I kind of don't want it to all be over. CAN THERE BE MORE, PLEASE, TARA? MAYBE A SCOUT NOVELLA IN OUR FUTURE?

*Descent* was well worth the wait! It was intense, and a little heartbreaking, but the journey these two characters go on was so beautiful to read about. :)

I have thoroughly enjoyed Tara Fuller's Kissed by Death series. It was in the first book that we got to meet Easton, and I have been so looking forward to reading his story. He has that dark, broody, silent, badass vibe going on and he just oozes with hotness. He thinks he is beyond hope, but underneath there is so much more than meets the eye. Easton's love interest and new to the series is an angel named Gwen who is able to see past all Easton's walls into the man inside. There is only one problem....Gwen happens to be the bosses daughter. A sort of reaper gone bad puts both Gwen and Easton in a precarious position, with Easton being commissioned to train Gwen, and subsequently they both find themselves in the midst of a whole lot of trouble. In the midst of it all and despite his reservations, Easton finds himself actually having feelings for Gwen, something he never thought possible and when hell threatens Gwen, Easton will tear down the gates if necessary to protect her.

I thoroughly enjoyed Easton and Gwen's story. The romance was sweet and had just the right amount of hotness while still being appropriate for teens. I loved getting to see Finn and Cash, who also made appearances as well - I just love those guys. If you enjoy paranormal romance, then you will want to add this to your TBR list.

### **Vi (the Vi3tBabe) says**

After all this time, we finally get Easton's story! And I have to say, it was a pretty good story. Yay! Easton was exactly the kind of broken, bad boy I suspected and I loved that it took someone as pure and good as Gwen to make him realize the good in himself and his ability to love. It's been awhile since I've read a good Paranormal YA, and even longer since I've been in this reaper world. We've seen the Inbetween and also the heavenly side of things and now it was time to dive into the true horrors of hell. Tara surprised me with how vivid and detailed she was with all the horrors of hell. That was easily my favorite aspect of the book as most of the time authors tend to gloss over the finer, horrific details and then Hell doesn't really feel like Hell. That's not the case here at all and I loved it!

Easton was every bit as damaged and tortured as I thought he was. More even. It was sad learning of all the things that happened to him while he was alive and also all the years he's been a reaper. He truly thinks he's a bad guy, undeserving of love and care. Yes, he's rough around the edges, but not in an overly jerky way. It also sucked having to shoulder the burden that Finn and Anaya left behind after they went after what they each wanted, not that I faulted them for it. That, of course, leaves an over-worked and bitter Easton.

Gwen has lived a sheltered life as a heavenly angel. She's never seen the true horrors of the world or of hell, but when fate makes her path cross with Easton's, he's about to show her the worst of it, whether they both want to or not. What I liked most about Gwen was her need to help others. She has a gift where she can absorb the pain and negative emotions of those she touches and she sees so much pain and sorrow in Easton, she's inherently drawn to him. I will that their romance is a bit off with regards to pacing and such. I couldn't exactly pinpoint when these two truly fell in love with each other, but it felt a little too fast for me. Yes, they're good together and after all the "I Love You's" are said their romance is pretty touching, but their romance on the way to the "I Love You's" felt a little off. Also, the resolution between Gwen, Easton, and Gwen's father was a kind of anticlimactic.

It's been awhile since I've read the other books, but I think this one might be my favorite. Easton just stole the show with his tortured, yet loving soul. Even if the romance itself wasn't a total winner, the story as a whole was great and I really loved Tara's version of Hell. Descent is a quick and fun read. I really enjoyed Tara's writing style and her cast of characters.

More Reviews Here: [Readers Live A Thousand Lives](#)

I have been waiting for this book for such a long time now and I'm so glad we finally got Easton's story. This has been such a fun, yet slightly dark, series and I've enjoyed following these characters along.

Easton has intrigued me from the moment I met him. He is so dark and kinda scary, but at the same time he always felt like a good guy. He put up a scary front but I always wondered what was underneath that front. I really enjoyed getting to know him. He has a dark past and he has suffered immensely during his years as a reaper for hell. Some of the things he has endured are unspeakable. But despite all of that, he still managed to remain a good person underneath it all and that makes him special.

Gwen is basically Easton's opposite in every way but you know what they say... opposites attract. Gwen sees Easton for who he is and sees his goodness. She has lived a very sheltered life and when she finally gets out it shows. Her innocence and naivety could be frustrating, but at the same times it's understandable. Her acting otherwise wouldn't be believable.

Easton and Gwen together just work and I really liked them as a couple. Easton proves that he is willing to

do pretty much anything for Gwen. The pain he put himself through was crazy and he did it because he finally found someone he could love. Easton is special. I couldn't believe what he was willing to trade just to keep Gwen safe. But the best part is, it goes both ways. Easton spends a lot of time trying to save Gwen. But Gwen isn't weak. Underneath her innocence is a strong and stubborn girl. And when push comes to shove Gwen can do some saving of her own.

Descent was another good addition to the series (although Blurred remains my favorite) and it was also a lot darker than the first two. Descent stands out in the series because a majority of the book actually takes place in hell and as you can imagine that was rough. There are horrors there and torture and pain. Some of the horrors make my skin crawl just thinking about it. But I actually really liked that this book took place in a completely different realm. At heart I am a paranormal fan, so I love when I get to visit new places, even when those places are terrifying.

Descent was a really enjoyable read and I was able to devour it in one sitting. Fans of the series will not want to miss Easton's story.

I absolutely LOVED this book! Why did it take me so long to buy? I hated how short it was, but holy wow! The chemistry between Gwen and Easton was heart wrenching and infuriating and totally swoon worthy. (Especially when Easton finally admitted to himself that he actually likes her.) Although I feel like Tara could have made this book longer, it was written beautifully and is now one of my (many) favorites. Looking forward to whatever Miss Tara Fuller writes next, that's for sure.

2.5

Descent is a story of forbidden love between an angel and a reaper. Easton is a 400-year-old reaper doesn't believe in happiness or love or anything of the sort. Gwen is a 17-year old angel who's naive, sweet and everything Easton isn't. They were an interesting pairing. Easton was a broken man, and despite how much it's sad to see, but I love a broke character. They make things much more interesting, don't you think? And Gwen was just what he needed, someone to light a flame in his heart.

I didn't have the build up of anticipation for Easton's book like most readers did because this is the first book I've read from the series. As always, I prefer reading the whole series because you get the whole background, but it was a great stand alone novel. There wasn't a time where I felt as if I was missing out on anything.

The beautiful cover was there, the gripping storyline was there...but the execution wasn't. Emotionally it was a let down. Descent was very one dimensional, the surface was great but if you wanted anything deeper there wasn't another level. It's frustrating, because it had a great storyline and as I was reading I could see the potential.

It was a short fast-paced novel which made it easy to read in one sitting (which I just love), and I enjoyed very much that we got both sides of the good and bad sides of the scale with Easton and Gwen. If you're

partial to fast growing love, angels and reapers and quick reads, then you'll like this one.

Descent was the perfect ending to this trilogy. It was pretty much everything I hoped it would be, and I loved getting to know Easton. Moreover, with the dominance of fantasy in the YA genre nowadays, it was nice to get back to a paranormal series I love!

Easton continues to be a Hell reaper, but after Anaya's departure he has to take on her job as well - be a reaper for Heaven. Easton has a colleague, Scout, to help him, but Scout's not Anaya or Finn. And when a job of theirs goes wrong, Easton feels obligated to rectify Scout's mistake. Especially when his boss's daughter, an angel of joy, has the same goal. Easton is supposed to train Gwen, but that turns into a rescue mission in the deepest depths of Hell - a place Easton never thought he'd return to.

Easton's always been my favourite of the three protagonists of the series, so I was super excited to read his story. And it did not disappoint. It was definitely hard to read about everything he's endured, but it made me sympathize with him all the more and admire him for the amazing inner strength he has. Easton is dark and damaged, yes, but it's just made him stronger. He's actually one of my favourite YA characters now, mostly because of how complex he is and despite being what he is, he seems more real to me than most protagonists I read about.

And Gwen, even though she's so different from Easton, complements his character really well. Initially she seems like the typical damsel in distress type as Easton has to protect her from everything in Hell. But Gwen can hold her own, as we see soon enough. She's innocent and naive, but also strong-willed and smart. She's resourceful and loyal, and inherently good - of course she is, she's an angel. I loved seeing Gwen's development as a character.

There are some very dark things in this book, and the imagery is horrific at times. I pictured the entire thing in my head, and it wasn't pretty. I loved that Tara Fuller spared no detail when it came to describing Hell. She didn't gloss over anything, and her version of Hell is something straight out of a nightmare. It's definitely not for the faint-hearted!

The end is all wrapped up nicely and we also get to see what Anaya, Cash, Finn and Emma are up to, which was great. I'm glad Easton finds happiness in this book after everything he's been through, and though Gwen is the newest protagonist to the series, I love her just as much as the others. I'm sad to say goodbye to this series as I missed reading this kind of paranormal stuff. I do hope Tara Fuller will write more, though. Because I will definitely pick it up.

## Asheley says

I feel like I've been waiting forever for this book! This series has been such fun for me.

**Descent** is the third installment in Tara Fuller's *Kissed by Death* series. It features Easton and Gwen - Easton is one of Hell's Reapers and Gwen is an Angel of Joy.

----

I remember Easton from earlier in the series - I remember hoping that he would get a chance to tell his own story. I've been neurotically watching the release date for **Descent**, seriously every single day for months and months and months, so reading this highly anticipated title has been some of the most fun I've had in a while.

Easton is a Hell's Reaper, which means that when someone dies and is not going to Heaven or the Inbetween, he is charged with escorting their soul to Hell. Unfortunately, he has been doing this same job for almost five hundred years, so he is known for having a little bit of a rough-around-the-edges attitude. *I probably would too with that scenery every day, ya know?* Easton also has a heavier-than-normal workload right now until more reapers are recruited, and he isn't thrilled about being so busy all of the time. Maybe most importantly, Easton carries around some guilt for things that happened to his family about five hundred years ago - he can't seem to let these feelings go. All of these things add up to make for a not-very-happy-go-lucky Easton, daily.

Gwen is basically the opposite of Easton - she IS filled with joy and happiness all of the time. She is charged with spreading joy to the people of earth and to see the goodness in people and...well, she's an angel, so she does angel-y things.

Their paths cross when they both happen to be at the scene of an accident in which several lives are lost, specifically one person that Gwen happens to be watching over at the moment of death. Easton trusts someone else to take this soul up to Heaven, *but* there is a misunderstanding and the soul gets taken elsewhere, which causes extreme distress for Gwen. EXTREME DISTRESS. Ya know, because she is an Angel and joy and happiness and Heaven and eternity and all of that. *I would be in extreme distress too.* Easton and Gwen soon team up to go down into Hell and retrieve this soul so it can be delivered to Heaven for the rest of eternity.

*An Angel + a Reaper. An Angel + a Reaper!*

This is basically an impossible task because 1) nobody ever really goes down into Hell and comes out the same and here Easton is taking an Angel and WHAT IS HE THINKING? 2) Gwen is super-beautiful and also the daughter of Easton's boss who is hella intimidating so DUDE DO NOT FALL IN LOVE, don't do it. *Do. Not.*

Ohhh, but just like any great paranormal romance, that is exactly what happens and it's so much swoon. Because you see, Easton doesn't even think he can be loved and he doesn't think that he *can* love. THIS IS A RECIPE THAT I ENJOYED VERY MUCH. It is during this incredibly stressful time of working closely together that Gwen sees the good in Easton where no one else ever has, she helps him experience a few snippets of happiness where he hasn't in hundreds of years, and she shows him what love is where he had pretty much forgotten it. Gwen gives Easton glimpses of what life could be like if only there is someone in it to love, and suddenly Easton finds himself *feeling things* for the first time and *wanting things* for the first

time. This same thing applies to Gwen too, see - as an angel, she isn't supposed to experience these things in life for herself! She was created only to give joy to other people. These two help one another and end up falling in love...

...but since a Hell's Reaper and an Angel of Joy can never be together, *what will happen after they deliver the soul to his rightful place in Heaven? Is it possible for them to have a life together?*

----

I mean, gosh. If there are ever FUN books out there, these are it for me. I remember reading **Inbetween** when I was in my car on a road trip a few years ago and thinking how much fun it was. And I remember being out-of-my-mind excited when I got my hands on the second book, **Blurred**. The same thing happened here. I love these reapers to pieces.

This third book is a little bit darker than the first two books, but I expected that given the setting and the characters featured (and even when I judged the covers of the series, see below, which are so great) The darker tone didn't bother me at all and I was still absolutely as stuck on this story as I was with the first two. Naturally since the setting contains a hell-ish backdrop for a portion of the book, there are going to be some darker scenes, with some of them being part of Easton's own backstory. There were even a few times when I shuddered a little but I'm thinking that this was great because going down *there* to retrieve the soul wasn't supposed to be all green grass and puppy dogs and fun and games. Great imagery, great worldbuilding. Characters that I love from previous books are present in a few scenes but this book belongs largely to Easton and Gwen and their own story.

I recommend **Descent** by Tara Fuller and the entire *Kissed by Death* Series to readers that enjoy paranormal romances and stories about reapers. They're just FUN - have I said that yet? I think they're great even for most younger-young adult readers, which is a solid plus at my house. This entire series is very high on my rereads shelf and considering that I didn't reread the first two books before I devoured (seriously, devoured) **Descent**, I hope I get the chance to reread the entire series soon.

## **Kirke says**

Descent is supposedly 320 pages long, but it felt a lot shorter as I finished it in a little over two hours. Talk about a fast read. I think this was mostly due to the writing style, the simpler sentences and word use. It was very clear that this is a Young Adult novel.

It's the first book in the series I've read, and you can easily read them separately. Each story follows a different couple, and while some other characters are mentioned, it's not hard to figure how it all connects.

Easton and Gwen are opposites in pretty much every way. He's a grim reaper, travels through hell on a daily basis and has a bad attitude. While Gwen is an angel of joy, her mere presence is uplifting for the people around her, and her touch takes away your sorrow.

When they accidentally meet, Gwen is drawn to Easton's darkness. Next thing you know, Easton is tasked

with Gwen's training to become a reaper. Suddenly they're stuck in hell, and everything is absolutely not going well. They will need to battle many enemies to make it out alive.

The pace of the story is fast. From the action to the love, and to me at times too fast. I could understand the attraction between the characters, and their trip to hell was exciting. The love felt a bit too instant for me, though technically they're teenagers so I could get in the mindset of that first love.

A fun and fast read for all teenagers. The bad boy grim reaper will appeal to many girls, and Gwen's goodness is inspiring for all. Descent had plenty of action and fans of the series will definitely love it.

### **Amy says**

“Love was a product of the work that we did. The kisses, the intimate whispers, the innocent touches that meant more than words could ever express—these were things that I'd never have. Things I was never supposed to want. I was merely the spark to ignite the flame. I was never meant to experience the burn.”

I know I say that I don't get a chance to read a lot of YA books that often anymore and I think that is something that I need to change. This book is another great example of why I love this genre. I have always been a fan of paranormal romance. I love a good angel/demon story and this one was just fantastic.

Descent follows the story of Easton and Gwen and is told from dual points of view. Easton is the reaper from hell. He doesn't believe in love or happiness. He's only known death and darkness for the past 400 years. The last thing he planned on was meeting Gwen. While going to reap some souls, he encounters Gwen and another angel. He's intrigued by them. They just radiate goodness and are distracting him from doing his job. See not only has he been reaping souls for Hell, he's also been helping bring souls to heaven. And that's what he has to do, bring a soul to heaven. Unfortunately, by having to do that, he's counting on his partner to bring the other soul to heaven. And lets just say, his partner didn't fully understand what was being asked of him.....

Gwen is an angel of joy. She's lived in a “bubble” for the past 17 years, only seeing happiness and joy. Seeing a soul getting reaped first hand has a lasting effect on her. She wants to know more now. She no longer wants to be shielded from the bad. She wants to see and understand it all. What does that mean exactly? Well, looks like Easton has a new job. Easton is supposed to show Gwen a few reaps and scare her back into the world that she's always known. Little did he know that Gwen had a different mission in mind. Just how far into Hell is Gwen willing to go to complete her mission? Will she really be safe with Easton? Will Easton be able to protect Gwen at all costs?

I have to say, I was immediately drawn to this book because of it's cover. Then I read the synopsis and knew I just had to read this book. I was pulled in and captivated by this story from the first page. The plot was so refreshing from what I normally read. One of the things that I loved was the mature feeling of the book. I didn't feel like I was reading a YA book. I loved the world-building. The author gave such great detail to what her vision of Hell would be. It felt very realistic and was very easy to visualize.

I was intrigued by Easton as soon as I met him. He had a darkness to him. He was so sad, so broken. I just

wanted to know why he was the way that he was. I enjoyed watching his character grow throughout the story. He went from unfeeling and not caring about anything or anyone to seeing that maybe he does deserve goodness and love. That maybe there is somethings that are worth fighting and sacrificing for. And Gwen...So curious. Always wanting to fix things and people. Feeling that pull to take ones pain away. Never wanting to give. She was such a strong character. A lot stronger than most people gave her credit for.

Descent was a quick, but enjoyable read for me. The characters so intriguing. The story-line captivating. It made me laugh and swoon. I loved the push and pull between Easton and Gwen. I loved the angst, romance, action and paranormal elements. Overall, I just really enjoyed this story. This is my first book by this author and I'm really looking forward to diving in and reading the first two books!

I was lucky enough to get this early release review copy for the final book in the Kissed by Death series. So, I haven't really read the first two books. I always wanted to start on with it but never got round to it. I shouldn't have read this book but I read it anyway and I am glad I didn't suffer much from the not knowing what happened previously.

I am quite surprised by how much I liked this instalment. If I had read the earlier books I think I would have been crazy dying to read this final chapter. I really loved the descriptive scenes about the whole reaper business and soul deliveries and all those punishments. I also found it to be darker than I thought it would be. And I loved it for the harshness.

I loved the writing that is for sure. And also the characters. I got to like Easton and he is apparently a beloved bad boy from the previous books. And I think I will someday read the first two books cos I don't think I got that spoiled about the characters. Like I got the final chapter but I am quite fine cos I don't really know how it all led to this final chapter. \*winks\* So what I really wanted to say was I would like to know how Easton got this beloved. And so I will read the first two books.

Okay, so Gwen was quite sweet and whatnot but I guess Easton is my fav character from the duo. I loved the duo together but if I had to choose I would go for Easton.. xP This book was told in dual POV and I loved both of their narrations for sure. But Easton, my man. Haha.

And I loved that this was a relationship between a reaper and an angel. Tehehe.

I read this in a week cos I was sick or I would have read it in a day or two. As I was quite hooked and loved the pacing and [Gwen's transition into a human form (you will understand what I mean by this weird thingy after reading :p)] and what not.

So I definitely enjoyed this book and I am sure all the fans for the first two books will dig it more. Cos well, not having read the first two books I could have felt lost and what not and not really like it. And I will stop rambling now. You know what I am trying to say. "/

You will definitely love it. I hope. \*winks\*

For the suspense, perfect world building, fantastic descriptions and top notch writing. Read this book. ;) As I think it can be read a stand alone cos of different protagonists each book obvi. :p

I would like to thank Entangled Publishing for this review opportunity.

Descent comes out June 2nd. Be sure to get your copies. ;)

\*My Thoughts\*

Descent is the third installment in the Kissed by Death series. Kissed by Death is a trilogy that looks into the world of reapers, both heavenly and otherwise. It is the reapers jobs to take souls to its final destination. The first book, featuring Emma and Finn, covered a place called the Inbetween. The second book called Blurred, featuring Anaya and Cash, covered a place called Heaven. Now, we get our first look at Fuller's rendition of what hell looks like. I do like the way Fuller writes about Hell. It is very descriptive, scary, and a horrific place to be even for a brief period of time. There is nothing fun about being sent to Hell, not even by accident.
