From Reader Review Forbidden - short story for online ebook

Shona Booky Ramblings of a Neurotic Mom says

This is a really short story, but don't be fooled into thinking that just because its short that it is lacking.

I knew when I started reading this was M/M (male/male), in fact i have put off reading this in the past because of this. I dont mind reading erotica but m/m has never appealed to me, but i decided to give this a try, it is after all a short story so wouldnt take long. If you didnt know the narrator was male it would take you a while to realise this. Although the book is sexually explicit it is written rather tastefully but is strictly 18+ only.

Victoria says

Well this was a fast read I must admit. It took me an hour to read it. This short story is really intense.

I like the fact that the scenes between the characters are very well described, though I didn't like that there were so many short sentences. Maybe it would have been better if some of them were longer or combine some of them into one sentence.

This is really my opinion, buy you are the author and you decide how to write the story. No matter that this story was short I enjoyed it very much. I was thinking how the characters came to be in such intense situations...maybe there is or was more to their relationship. I imagined that this can be part of a major story. At least this thought got caught up in my head.

I give this book 5 out of 5

Good job.

Victoria (Books and Babble)

Cyma Khan says

Very engaging and it just wasn't enough for me because I wanted to read more. Going to wait for the book! Really like JVK's writing. I think she's definitely one of the better contemporary writers.

Nemesis says

Very interesting world the author created here. But this story is too short and the m/m part felt unconvincing to me. Not to mention the BDSM aspect of it. Hope the sequels will be published soon.

J.V.K. says

A new view of Haven and Hell, a New kind of Sadistic God-like King...

The story of Forbidden #1 shows the world the characters in the short that you new. This book is not for the faint of heart. Follow the story of one of the last city's on earth, see the destruction and the poverty, follow the path of Jax of the elite and see his story.

Christina M Condy says

This story by JVK was a very short one but it will suck you in. The emotional turmoil the main character goes through because of his infatuation/love of his keeper is heartfelt and emotional. It IS a M/M book so if your against that then please don't read the story. But if your open to all genres and all types of loves then this is the perfect erotic story. I can say I would like to know more about the characters and how they became involved in this type of lifestyle. It is also for 18 and over because of the sex and violence in the short story.

Heaven Lyanne Flores says

I did not know what to expect when I began reading this short story but what I got was not what I was expecting at all! But forbidden was hard core, well written, and had me wanting to read more from this author! Let's just sy you should give it a read

Syfy says

Odd little short, almost more of a poem. Rough, desperate insights from a submissive masochist. The psychology of this can be baffling, repugnant to some. In such cases I would urge don't bother reading. But for those who find it fascinating, highly recommend! This one is as unique as it is beautiful.

Elizabeth says

A Friend of mine recently recommended I try something outside my comfort zone. I never would have thought to read this even though the description I found arousing my interest. I am super glad I listened to K. she was right, this is very well written and very enjoyable to read. 5 Stars Can't wait to read more from this author!!!!

Cassie says

When I started to read Forbidden I wasn't quite sure what to expect, but I was pleasantly surprised and enjoyed the short story. It's dark, sexy, hard core, and very well written. I was left wanting more and needing

to know what was going on behind the scenes. I really enjoyed the short read, and it didn't let me down. Have to say it's not for children its a 18+ read with sex scenes and other stuff. But it was truly HOT AND SEX! Can't wait to read more from the author!

Bex 'n' Books says

4.5 Star Review

Forbidden is a powerful opening to what I hope will be just the beginning of a compelling series. The short story opens with the introduction to a fascinating, albeit dark world, where women are breeders, men warriors or simply cannon fodder to the terrifying demons lurking on the outskirts.

We are introduced to the main character Jax. A warrior who begins to struggle with his role, his position in the world that he is living. He begins to question the sanity of the life that he is leading. J.V.K effectively opens up this captivating character to us, allowing us to feel compassion towards his cause.

It is when Jax is at his weakest, when he begins to doubt the world around him, that he meets an intriguing and somewhat cruel man. A man that turns his world upside down, and sparks desires in him that he wasn't prepared for.

Forbidden flows smoothly and has lovely moments of real tension. Moments that are almost palpable. J.V.K has effectively developed a world that came to life, and characters that were terrifyingly real. Bex 'n' Books rated 4.5 sassy fairies.

Jessica says

First off, please be aware that Forbidden is an 18+ book. It does have some man on man romance & religious references in it. I just wanted to put that out there, so you know what you are getting into. If you have never read anything like that before, and you have an open mind this is a great read for you.

Forbidden is what I would consider post apocalyptic world, After the king turns his back on humans the world is ravaged by demons & the humans are left to defend them selves. Not only do humans have to worry about demons, but there are all kinds of crazy laws & rituals for worshipping that king. Jax the main character is a member of a group called the elite force, their purpose is to fight the demons & protect the temples. Jax is unsure of his place in this world, so he takes off and is faced with a whole new set of problems.

J.V.K did a great job on Forbidden the story flows smoothly & I could really feel Jax emotions just pouring from the page's. Jax also made me laugh a few times, he is a very sarcastic characters, I loved that about him. If your looking for something diffrent from the norm you usually read or you read man on man all the time this is the book for you.

Bex 'n' Books says

JVK's short is a very powerful erotic read. It successfully captures the protagonist's inner turmoil and his

angst. What was particularly interesting was the craft of the short; it was smoothly developed and effectively captured the depth of emotion and the erotic build up in the M/M encounter. Forbidden offers a snapshot of an SM meeting. It is emotive, gripping and very passionate.

Evelyn says

I was told to read this from a friend of mine... I will call her K. She told me since I use her pen name as the name on my facebook (I don't like using mine at all, but my name is Suzanna) That I should after reading this go to goodreads and review. She told me that this was something I would like, and she was right. I really love dark, and sexy and this was both. At first I was a bit confused but K. told me to just slowly read it and it would make sense and just taking my time to read this short story made all the difference. She was right, it has the darkness that I crave, and the sex that I crave more LOL, single mom here after all. I would recommend this story to anybody, if you liked that horrible book 50 shades of grey you will love this!!! This is well written and when K. told me that the writers first language was not English I could not believe it! I totally know K.'s taste and when she gives something 5 stars her friends know to check it out, she is the most critical person on the face of this Earth! She gives her own work 1 star, (of course I go in and change it to the 4-5 stars she deserves) Now take not only my recommendation, but K.'s and everybody else who rated this 5 stars! They know what they are talking about! I love this short story! Excuse me while I go to Barnes and Noble and buy the rest of this fabulous Author's work. Tootles ~Suzanna

JustJen "Miss Conduct" says

The was a short, dark, beautifully written little story. There were times where I was getting confused with the tense usage and what was actually going on here. I found I just really wanted more details and wish there were more to this story, as this little taste really wasn't enough for me.
