Awesome book, the only problem was the poor editing. Besides that I loved the book

Kaegan says

This book is so amazing! I couldn't put it down! The only thing is that there were several grammatical errors. I beg the author to please edit it so that it will be even better than it already is.

Richlin Thompson says

Ok...I will be the first to admit that this book would have had a better rating if the grammar was better. Now the story in this book was amazing and I am looking forward to seeing more. But it was difficult to read due to the grammar. Its hard to catch on.

A good story but hard to read.

Amazing book, read on wattpad.

Shalyver Monagas says

Do I start with the bad or good? Well...

Good- it's a story where you find yourself nonstop reading it, the main story is very good! You fall for the characters backstories. Everything is amazing in this story but...

Bad- if your the type of person that ALWAYS correct someone when they write BAD and/or WRONG well in this book you'll find yourself cringing every second till— no, IF you can finish the book.

I would recommend this book if you don't mind the bad grammar.

True mates

Excellent read. Kept me up all night reading and had to make myself go to sleep. Such a lovely story of the true mates, just pure awesomesauce

Pamela Goodrich-boggs says

This is one book you won't ever want to put down! You will want to read it again and again because each time you will gain more insight into the characters, the plot and foreshadowing.

Action, intrigue, betrayal, romance, power, love are just a few experiences/feelings you will have while reading it. It has villain characters you want to shake your hands at, and amazing characters who you will fall in love with. Highly recommended and highly addicting read!

Lelaney says

I love it can't wait for part 2

Misti Murphy says

I received this book for an honest review.

The story line of Hidden Queen was fantastic. A young werewolf princess witnesses her parents being murdered and has to go into hiding, but hiding wont keep her safe. I loved this new take on wolves and vampires.

However, it needed editing. There were wrong and misspelled words, and tenses got mixed up which made it a hard book to read.

If this book was edited I'd give it a higher rating based on a great story. I'm also very interested in seeing where the rest of the story goes.

Anne says

I think the story is amazing

Arianna says

I read this book of Wattpad and usually stories there aren't the best. However, this book was really good. There were many plot twists and tons of turns. It was beautifully written and made you fall for the characters. I am very excited that I can soon order this and especially that the author is going to publish it! Now I need to know when the sequel is coming out! That cliff hanger is killing me!

REVIEW

New to me author.

The concept / story line of this book is fantastic and that is what I am rating. However that being said the book needs so much work in the editing part. Many words missing and misspelled.

I would love to reread when that is done as I would have given this book at least 4 stars. However I was gifted a copy for my honest review and that is what I am giving.

We have a young werewolf princess who is thrust into being queen when her parent's are killed. She also holds more power than any werewolf ever. She is kidnapped and thought dead by her pack. Although she knew of her mate he betrays her and takes another.

She is kept by Vampires who were once friends of her family. The eldest has fallen for her and she for him. They work together to increase her power knowledge.

Again this would have been fascinating but it needs serious editing.

Great premise... horrible writing

I gave this 2 stars because I thought the story itself was good. However, the writing and "editing" was absolutely atrocious. I forced myself to read this because I like the story. It does end with a cliffhanger, more or less. There's more story to tell and I'm sure it's interesting. But, I truly hope that the author takes more care and/or has someone- ANYONE- proofread the next book. I would be embarrassed to have someone read this as if I wrote it.
