Love Letters Cari Quinn , Cynthia Moore

Heart Signs The heart has a language all its own... Rory Fowler has taken Sam Miller's billboard orders for the last two years, but they aren't to advertise, they're love notes to his wife. Sam's most recent billboard about his wife's passing hits Rory hard. When she calls Sam to offer condolences, it sets off an unexpected chain of events that ends with Rory in Sam's apartment-and his arms. Reading Sam's love letters tugs Rory into the romance between him and his estranged, now-deceased, wife. Their lives soon intertwine so completely that Rory wonders how she'll ever forget the man who makes poetry out of emotions she's fought to dismiss. And plays her body even more skillfully than he writes love notes. Consumed by guilt and grief, Sam is shocked by the feelings Rory arouses in him, sexually and otherwise. Now he's not thinking about yesterday as much as he's looking forward to tomorrow. He's just not sure if he's capable of moving on...or if the woman who helped him find the will to really live again will be by his side.

Tease Me, Take Me Smart, beautiful Amanda Clark is a customer service rep at a gift basket company. An avid historical romance reader, she doesn't currently have a boyfriend but she does have a secret admirer. For three consecutive days, Amanda has discovered cards tucked inside her desk drawer at work with hot, sensual messages typed on them. Just as Amanda begins to get a little concerned about the identity of her secret fan, she receives another note promising she'll learn who the author is within the next few days. When the person who has been writing the messages is finally revealed, what follows is an evening full of teasing, flirting, laughing and, best of all in Amanda's opinion, romance.

Annie says

Two hot stories in one hot book. Make sure to keep a fan near by when reading because these stories are hot. In the first story Heart Signs, Rory and Sam meet and hit it off. Sam is still devastated by the death of his wife. Rory helps bring him out of his funk and together they find a steamy romance. In the second story Tease Me, Take Me, Amanda has a secret admirer who leaves her steamy notes that coincide with the romance book she is reading. These stories manage to be both cute and steamy. I received this book for free through Goodreads First Reads.

This is actually two stories. The first is 'Heart Signs' by Cari Quinn. I loved this story. The characters are great with a wonderful story line. Rory Fowler works in a family business providing billboard space for customers. She has been fascinated by one customer in particular, Sam Miller. Sam has been renting billboard space to write love letters to his wife for over 2 years now. When Rory returned from a vacation she drove past Sam's billboard and noticed that Sam's billboard showed that Dani, Sam's wife, had recently passed away. Rory couldn't get this out of her mind and just had to talk to Sam on the phone. Up till this point they had only shared emails to conduct business. When Sam talked to Rory he ended up inviting her to lunch with him. The story actually begins here when Rory, on her way to the lunch date, rear ends Sam with her car. I don't want to put any spoilers in here. So I'll just say that there are many surprises in this story and it will pull at your emotions. Its well written and stays with you long after you are done reading. The second story, 'Tease Me, Take Me' is a lighter read. Amanda Clark is an avid romance reader. She is receiving love notes at work from a secret admirer. The story line is light and fun with a very happy ending.
