## **MYSTERIOUS WAYS: Seventieth in a Series of Jess Williams Westerns (A Jess Williams Western Book 70) Robert J. Thomas , Nancy Bach (Editor)**

Jess is on his way back to Texas after ridding his home town of Black Creek, Kansas, from drifters and troublemakers. While he makes his way back toward Texas, he finds himself hunting another killer. That leads him to a trading post, where he finds the man he's been looking for. He dispenses his cold justice on the killer and ends up staying the night there.

While there, he meets three nuns who are traveling to a convent in southwest Oklahoma Territory. They quickly share their opinion about what he does for a living, killing men for money. After he leaves the trading post, he finds the stagecoach carrying the nuns along the trail. The shotgun rider and driver have been murdered, and all the cash the nuns had been carrying to the convent has been stolen.

The nuns are alive and well, but now they inform him that he has been chosen to escort them to the convent and get their money back from the robbers. He refuses, but offers to help them to the next town, but they insist on him taking them all the way to the convent.

He finds himself in a strange predicament, when his horses refuse to leave the nuns. He drives the stagecoach to the next town and again attempts to leave them, but his horses seem to have a mind of their own.

Reluctantly, he submits himself to doing what they insist he must. The trip along the way is a strange one indeed. Things that go unexplained keep happening and Jess wonders who is really running things, him, the nuns, or someone else.

**DIVINE INTERVENTION**

Our friend Jess Williams is at it again, helping those who have fallen on hard times or in some cases being bullied by a bunch of nere-do-wells.

He's accompanying three nuns to their convent in southwestern Oklahoma, who were also robbed of ten thousand dollars which was for the convent. As we all know Jess leaves no stone unturned, he tracks down the perps or whomever needs face the "WILLIAMS WRATH."

Jess helps those who for some reasons are having a hard time, such as the town that was slowly dying, how he went looking for good health top soil and suggested to the folks how to plant crops above ground in wooden box planters. That's something new to the west, the two gamblers who accompanied him to help escort the nuns.

Read this adventure, I know it's the same plot, but the adventures are exciting and they illustrate how Jess Williams lives his life. He's a smart businessman, philanthropist. All I can say is that Jess Williams and his

long horses are OK to ride the river with. Also the "DIVINE WORKS IN MYSTERIOUS WAYS," but them you never know, do you?"???

## **Deborah S. Lawson says**

### **Superb!**

Totally enjoyed this thought provoking story . I believe in justice and Jess ensures it is obtained. Justice, in my opinion, is that some acts of violence are so vile that the person committing them does not not deserve to live.
