The Games We Play: The Complete Bad Boy Romance Series Box Set Elizabeth Nelson

It was supposed to be a quick lay. A one night, one time, no strings attached deal. That's what I thought I was signing up for. After all, it was Hilary's idea. She said I needed a quick rebound f*ck to get my ex, who just broke up with me, out of my mind and life forever.

I wasn't sure. One night stands weren't really my thing. But if I had to go through with it to get my ex out of my mind, then it might as well be with him. And when his eyes locked on mine, I knew I was way over my head with this surf legend, womanizing bad boy.

And when I learned a secret about my own family, I was suddenly caught in a strong current quickly taking me out to sea. I just wondered who would save me first, my ex or this new bad boy whose bed I couldn't seem to escape, before I drowned.

Wow

I really enjoyed this book, it was well written and left me wanting more about Allison and Riley's future. I will be looking for more books from this author.

LaKeisha says

Good Read

Overall the book was good with the exception of a few grammatical errors. However, the sex was too much. Ali and Riley never took the time to talk. Can't believe anybody is in love that fast to where all they want to do is sex.

Brenda Vicchiarelli says

Great read

Great story line. Sexy and steamy highlights throughout the book. Love this writer, check out some of her other books

Painted

Hot!!!!!! Emotional, raw, full of feelings, love or loss in today's world. This book was outstanding. It's got just a little bit of everything in it to flow through your mind, soul, and body.

Bad Boy Learns

Ali was a bit too young for me for this story, I don't know what Riley's age was but overall a good read, busy story.

I just HAVE to complain about one thing: the use of " Oh my f...ing God" just MUST STOP! STOP! STOP!!

It is way overboard and more people should speak up.

Eulalia Sinclair says

Games!!

This was a cute young adult romance. Allison came into her own through a series of heart breaks with her family and thinking she wasn't good enough.

Kristine Cluney says

Great story

Great story but was disappointed with the ending. I wish she continued the story into the future and let us get the complete picture of them working living and moving on together. I feel like part is missing but what we did get was fantastic.

Adriana Buiuca says

I love Riley & Ali. They are perfect for each other.

Their story is so complicated, keeps you hooked right from the start. The chemistry between them is insane. I really like how their relationship evolved throughout the series and how it ended.

Very happy to have purchased this box set.

Jeanette F. Howell says

Enjoyed the book and the back story, liked that additional story can be written

Smut Hut says

******3.5**** Stars**

I would have liked it a lot more if the main characters weren't such wishy washy whiney brats.

I know that sounds mean but I was annoyed by the up and down back and forth about the same thing over and over again.

Riley was BARELY able to keep it together and he cares about Ali so much and Ali can't make a decision to save her life.

60% of the book is sex scenes. Not that I mind but their relationship had no real depth to it.

So I gave it good ratings for the awesome sexy times and that the story I liked was written well.

BzBooks says**pretty good surfer-player read**

Last book gets a little sloppy, typos and thin, predictable storyline (It would have been nicer to have a more complete dialog about their thoughts and feelings and the truth near the end), but it is an enjoyable read.

sanner faye crook says**Ok**

This book was ok young girl crush on a hot guy not a keeper for me a good long read but just ok

Raney says**Steamy hot and cute a great read**

Steamy, sexy, hot and a cute romance. Good story line. Definitely worthy of purchase and worth reading. Wish the best friend could have hooked up with his best friend.
