This book was great. I liked how it was not a mystery the whole time, especially when they were shooting the music video . Before Vee Sharp started shooting, she got a note from what the crew thought was a fan. It was named "top ten ways to die". They were all death threats. one of these fans are trying to kill her. Throughout the story these death threats came into action. Like when they were filming the part where Vee was in a fish bowl as a mermaid, the sealing fell on top of the fish bowl. One of the death threats was drowning. luckily Joe Hardy cut the glass with a pen. At the last seen they shot the last death threat came into action. Falling. While Vee was on the hardest she fell. But Joe caught her . Then they saw this short guy T-mix , Vee's song writer, running. Joe realized that he was the person who sent Vee the death notes. So they chased after him. After a bout 5 miles of driving he fell into a pool. After that they caught him. Everything went back to normal.

The boys, Jaron, especially has picking up Hardy Boy books for our read aloud books. This one was a little cheesy. Okay, most Hardy Boys are a lot cheesy, but it had some good suspense in it that made the boys excited to read it.

This is definatly one of the best Hardy Boys Undercover Brothers books made. The other ones are good but this has something that grasped my attention. Maybe it was because I loved Aunt Trudy's part... maybe it was because Joe was head over heels or maybe it was just because I liked the motorcycles... who knows? I don't. I've read so many mystery books though I could easily deduce who was trying to kill Vee after a while. I would have done a few things differently to take the reader in the wrong direction on who was trying to kill her so that it came as sort of a surprize when they figured out who it was. I also liked it that Vee had some depth she wasn't just skin deep.

Aunt Trudy. Awesome character. It's because of her that the ending was so perfect. She is quickly becoming one of my favorite characters in these books.

I can't believe that Frank and Joe actually ended up in jail. It's a good thing Vee likes them so much, otherwise they would have had a hard time getting out, even with their dad's help.

And yes, Joe, you should have seen that coming! As soon as Frank said *he* wouldn't tease you at the end, you should have known he had a backup plan. Playback!

This book is about these two boys named Frank and Joe. These two boys work for an agency called ATAC. In this book the boys are protecting this pop star named Vee Sharp from someone who is trying to kill her. I loved this book it really had me wondering who was the attempted killer. I was surprise at the end of the story on how it ended. To me this was a great book and i would recommend this book to anyone who like mystery.
