"A perceptive portrayal of jealousy"- Kirkus Review

"It's clear now that I'm going away from her. But she's the one to plan it. It seems, no matter how stupendous a human being you are, there's always an evil in you, and it counters the good whenever your own interests are harmed. It's natural."

In the novel, Adie and Presha are two individuals who loved their freedom more than anything in life. Life takes a fascinating turn when they are bound together by the mystical feeling of love. They decide to be together for life in as impulsive a way as they were doing several other things.

But, only till the day, when Adie tells her something which turned their life topsy-turvy.

Initially she brushed it aside, considering it to be a darker shade of love- over possessiveness of a husband.

But, can the feeling of possessiveness turn someone into a beast?

This transformation of Adie from a contemporary man to a leery and controlling husband was blowing Presha's mind.

Will Presha change herself to appease her husband?

Did Prisha actually change after marriage or was Adie's notion about Presha a delusion?

Can love be so frail that some hormonal imbalance can destroy it ? Or is it 'cause of some unexplored dimensions of human existence- a journey of the soul across lives.

### **Neerja says**

Being a part of the team to edit this book I think it is an excellent to read option. It deals with love, faith, hatred and forgiveness. It takes us to realms beyond life. The writer has beautifully portrayed how human traits go beyond one's present life. It makes us speculate over the judgements we make about others. It compels us not to act on our impulses but rather delay our judgements about our dear ones. It inspires us to explore the root cause of our problems rather than accepting them on face value. However, in the story, by the time Adie & Presha realise this, Presha loses her battle to life. This book combines medical as well as alternate methods to treat psychological problems.

### **Puneet Chowdhary says**

It is a very novel treatment of human relations and a very close study of Human relations and a tinge of gray shade that is present in almost each one of us. Books brings out a very interesting aspect of human relations that is past birth and how it impacts the marital relationships. We may or may not believe in pre birth lives but author has very convincingly and very meticulously brought out the role of pre birth lives in our marital relations. A very good and interesting book. Must Read.

Without saying much I would summarise the entire book in a single word as “ Killer ”. It is beyond imagination to even think that Marital problems could have their origin to Pre birth life. A nail biting story which makes you sit on your toes for 2 hours. I strongly recommend this as a must read.
