Sweeter Savage Love

Sandra Hill

Sweeter Savage Love Sandra Hill

Sandra Hill strikes with humor, character, and artistry. *Sweeter Savage Love* is hot hot hot!" *The Literary Times*

The stroke of surprisingly gentle hands, the flash of fathomless blue eyes, the scorch of white-hot kisses . . . Once again, Dr. Harriet Ginoza is swept away into rapturous fantasy. The modern psychologist knows the rough and ruthless man of her dreams is everything she should despise, a quintessential male chauvinist, yet time after time, she finds herself lost in visions of a dangerously handsome rogue straight out of a historical romance.

Harriet never believed that her dream lover would cause her any trouble, but when a twist of fate casts her back to the Old South she meets him in the flesh! To her disappointment, Etienne Baptiste refuses to ravish her and fulfill her secret wishes. If Harriet has any hope of making her amorous dreams become passionate reality, she'll have to seduce this charmer with a sweeter savage love than she'd imagined possible . . . and savor every minute of it.

Marlene Van Rensburgh says

absolutely loved it!!

Nadya says

How you fall asleep in a comfortable train with all the modern stuff we're so used to and wake up in your underwear next to criminals then get locked into a casket?? for a super **hot, steamy** scene with a hunky buff guy was too friggin out there to believe but for some reason **I LOVED THIS BOOK!!**

Ms Hill got me reading it --mainly due to the cover *ahem* but the tiebacks to Sweet Savage Love made reading this all worth the while!

Brenda (b) says

I started reading this one a couple of years ago and then I got sick and the book became "mislocated" for a while. Well, it resurfaced and I decided I needed to start it again from the beginning. I understand that this one is the 2nd of Ms. Hill's Creole Historical series. The first was Frankly My Dear which I haven't read yet.

A fun light-hearted time travel. The dumb-man jokes are great and so are Harriet's growing list of MCP (male chauvinist pig) encounters.

Michele Williams says

I found this book in a reference reading a Darynda Jones book and had to dig this one up. Quite funny like the 1-3 Graves books and a nice jump back to 1997 and times before. Not active obsession and opposite of the "bodice ripper" that historical romance junkies hone in on.

Julie says

fantastic, so funny loved it

Alex says

A very whirlwind romance, in that I was totally confused about what was going on

Follow me!

Fangirl Musings says

Read this years ago. Don't recall details, other than it being a pretty good story!

Stacie says

Silly time traveling romance novel. Gotta love it.

~Leslie~ says

Well, I gave up on this one for now. Pretty silly story of feminist who time travels to New Orleans after the Civil War. First off, no one from NO would have fought for the North. And I hate stories that don't get NO right. And her tiresome name calling just began to get old. I remember reading Sweet Savage Love as a teenager. One of my first bodice ripper romances. Intriguing idea to base this novel on that, but it just never works. I might try again later.

Ingrid says

Not only is this Etienne's book (from Frankly My Dear) but it's part a the Legendary Lovers series as well. This one pay's tribute(with lots of winks and nods) to the the legendary love of Steve and Ginny from Rosemary Rogers' Sweet Savage Love. One of the bodice rippers that put historical romance on the map in the early 1970's. By the way, if you think you can handle an epic, read Sweet Savage Love.

Maura says

It's not the worst book. Some aspects were okay, but Harriet, the heroine was annoying. Her insistence that she was beyond her own prurient fantasies about an alpha male and that she was a strong feminist in the modern age was rather annoying. Etienne was a bit of an ass. He was forceful and dominating as all alpha-males are, but he was also a jackass to his daughter and a judgmental dumbshit when it came to Harriet saving his life. But again, that's the prideful alpha male who just cannot have a woman doing whatever it takes to save his life. At one point I remember thinking that he wasn't worth even considering what she considered doing to save him. The twins were really cute though. Also, there was clearly a previous time-travel novel that came before this, but I never read it...so I felt like I was missing out on a few things.

Katy says

The story of a contemporary psychologist who take a train ride back in time to post-Civil War New Orleans.

She meets a Creole, who bears a striking resemblance to her dream lover, and falls into the drama of his life as well as his arms.

Amy Denim says

I've been waiting years, YEARS, to find out what happened to Etienne. Finally I found the used book on Amazon. Hurray.

I'm a sucker for a good time travel romance and especially if it's not to a typical time or place. Post Civil War Louisiana was really fun to read about and imagine life for a modern girl to be in. The one thing I didn't like about the book was the heroine's name. Really, Harriet? Blech. But, the hot and damaged hero, Etienne's made up for that, especially since I remember what a rascal he was as a child in Frankly, My Dear. Also, that Fabio cover...so not what I imagine the hero to look like. :)

Amanda says

I love, love, LOVE Sandra Hill books...she captivates me with her writing every book and this one was no different.

I also love how when you read her books they some of them intertwine with one another. The characters reoccur throughout the books even though the book has a completely different set of main characters.

I was SO happy that Etienne got a book of his own...I LOVED him as a child in Frankly, My Dear. So seeing this book made my day.

Julie says

Just by chance find on amazon and I had to get it! Very good read...specially if you've ever read Rosemary Rogers Sweet Savage Love. I wasn't too sure in the beginning with all the feminist MCP stuff but I was soon laughing and enjoying the story.
